WHXHX000CA000XXX

Mileage:

5.466 km

KW (HP) ccm:

118(160)1200

Price:

27.900 EUR no VAT

General Information:

VR6, this engine is the heart of the revived german Brand HOREX. Unfortunately, it is very difficult in our modern society to establish new brands for motorcycles and cars. Fortunately, there was a group of enthusiasts who had the courage to build a sophisticated machine with a 6-cylinder engine in their own engine frame. The VR6 is still being built today in a small, exclusive factory. Our HOREX VR6 was the first VR6 ever built for public road traffic. That is why the HOREX VR6 is not only important for collectors. A revision of the timing chain tensioner was carried out on our vehicle. All in all you can say that a Horex VR6 is already a rarity today.
